Council Meeting

The regular meeting of the Blairmore council was held on Tuesday night, the Mayor, councillors Dutil, Sinclair McLeod, Sparks, and secretary-treasurer Sherer being present. The minutes of previous meetings were read and adopted.

A communication was received from Messrs Sick & Simpson requesting that steps be taken to grade the street in front of the Alberta hotel, so as to prevent water from the street running over their sidewalk. Two letters from the Pacific Coast Pipe Co. were read referring to pipe being shipped for the town.

Two letters from the department of municipal affairs, relating to the By-Law No. 16 and the mode of deftante sale were read and received.

Campbell & Fawcett wrote stating that Mike Rosso had withdrawn garnishee proceedings against E. Morino.

Western Canada Fire Underwriters Association wrote in reply to secretary's recent letter re reduction of rates. They asked for some further information, upon receipt of which the matter of cutting down insurance rates of the town would be considered. Secretary was instructed to forward the necessary information.

Superintendent of Cranbrook division C. P. R. stated that work of laying water pipe across under track could be gone ahead with.

Several other correspondences of minor importance were read and passed upon.

Among the accounts read and ordered paid were the following: Order of E. Morino in favor of E. G. Taylor, \$80; G. P. R. for freight, etc., \$3.60; for stamps etc., \$1.20; B. W. Ryan, for lights for office, \$3.80; E. Hinds \$1; R. M. Cement Co., light account less deductions \$50.90; E. Morino \$150; J. R. Irwin \$100; W. L. Shera \$80.

An account from Woods & Steel for the subdividing of the Blairmore cemetery and furnishing six blue prints of same, for \$200, was referred to the cemetery committee.

Account from Printers & Stationers, Lethbridge, for books supplied through an agent of that firm some time ago, was held over at the request of W. J. Bartlett, of the Enterprise.

This order was given the Printers & Stationers without ascertaining as to whether or not we could furnish the goods and in defiance of our local license law which is desired to protect the home plant, this order was given without consideration of the necessary license.

Councillor McLeod objected to the second reading of By-Law No. 17, which is a by-law to amend By-Law No. 9 in respect to the tying of horses, etc.

Councillor McLeod also objected to the further reading of the Voters' Qualification By-Law which is intended to disqualify for voting any land holder who fails to pay up his taxes.

Shamrocks Bid Farewell

The members of the Shamrock Club held an enjoyable "At Home" on Thursday night, at which a number of guests were present. The object of the gathering was to tender a farewell to Mr. G. E. Taylor, engineer, who is about to leave on an extended visit to the Old Country.

A sumptuous turkey supper was served, after which a lengthy toast list assisted in the disposal of a goodly supply of gladding liquid and "wreaths of smoke." The toasts were interspersed by songs, choruses, quartettes, etc., and the display of vocal and other talents was the best yet known to this heaven below."

For a time even the time-tested Tartie and the grinning Crows' Nest seemed to shudder amid the choral warblings which echoed through the crevices of the club-house. Special among them were the French national anthem by Messrs. Menard and Pelot; "Dixie" by Messrs. Chester Pegg and W. Graham; "God Save the King" by Messrs. Schellfield and Ayers; and "The Maple Leaf Forever" by Messrs. George Briscoe, Harrington, Glow and others.

One notable feature of the gathering was the fact that the visiting countries of America, England, France, United States and Canada, were about equally represented.

During a lengthy speech, Mr. George very gently impressed upon his hearers the fact that he had been chosen as "Secretary PRO TEM."

Three cheers for France, three cheers for Great Britain, three cheers for Uncle Sam, and a similar dose for the Land of the Maple Leaf brought a most enjoyable event to a close at midnight.

To Erect Temporary Rink

A largely attended meeting of those interested in a rink was held on Thursday evening last. The rink promoters declared that it would cost upwards of \$200 to put in a pipe extension from the water main to the site of the proposed close-in rink, and that before the lateness of the season to undertake the work, it was considered that the business of the coming winter would scarcely warrant such expense.

The new rink site has been cleared up and the building material on the spot, and it was the intention of the promoters to erect a rink for the coming winter that could be covered and converted into an up-to-date closed in affair for the future season.

However, it was decided to

Successful Banquet

The Anniversary banquet given on Friday night by Blairmore Lodge of the Independent Order of Oddfellows was a fair success. The members and their friends, and some without friends, assembled at the Blairmore hotel where two bountifully laden tables awaited their attendance. At 10:30 the chairs were filled by a lot of hungry-looking people, who could not forget at the time "Turkey" with all her past troubles and those under which she must immediately lower arms.

After full justice had been administered to the numerous good this provided, a list of toasts were announced in order. The toast of "The King and Country" was proposed by W. J. Bartlett, N. G., and responded to in the singing of the national anthem. Dr. A. H. Baker proposed Oddfellowship, which was responded to by F. W. Doubt, D. D. G. M., who related briefly the origin and history of the "Three Links." Miss Williams rendered a pleasing solo at the piano, after which the health of the visitors was proposed in an able manner by Jas. M. Carter, and responded to by bright and wholesome addresses from Rev. J. MacLean Beaton, of Blairmore; Rev. W. T. Young, of Frank; and Mr. A. E. Ottewell, B. A., of Edmonton. Mr. Raori Green delivered a treat in one of his popular songs, which all enjoyed. The Town was ably proposed by Mr. Bigelow and replied to by Mayor H. E. Lyon who gave a brief history of the first habitat of the place now so well known as Blairmore, the town which has the best opportunity of any town in Southern Alberta. The original occupants of the first house built on the Blairmore site many years ago had the honor of being conspicuous among the gathering at the present time. That house had stood undisturbed as a quaint landmark of the town until just the past year when cruel hands transformed it into a drifting heap of ashes. Mr. Lyon spoke glowingly of the promising future of the town naming all the different resources, the lime, cement, coal, beer, brick, etc., which were being developed at present, and the cheering news that inside of the next six or eight months our electric railway system would be in full swing and be the means of ameliorating the

The location is on the south side of Victoria Street, directly opposite the Cosmopolitan hotel, where the temporary rink was located last season. Several of the hotels and business places have contributed liberally towards the expense of the temporary rink.

trials of the young men who at present were footloose the roads between Frank or Coleman and the Great Metropolis, or vice versa, in their chase of the so-called "leaders." After another piano solo by Miss Williams, R. M. Briscoe paid a tribute to "The Ladies," to which Mrs. F. Lank ably responded. The programme concluded at 11:55 p.m. with "God Save The King."

## HENRY BELL'S COMET.

The First Steamer That Piled For Hire

In Great Britain.

Among the curiosities of advertising may surely be placed the first advertisement of the first steamer that piled for hire in Great Britain—namely, Henry Bell's Comet. Thus ran the advertisement in the Glasgow Courier of Saturday, April 11.

Steam passage boat, the Comet, between Glasgow, Greenock and Helensburgh.

For passengers only. The subscriber having at much expense fitted up a handsome vessel to ply upon the River Clyde between Glasgow and Greenock, he means to make a profit by wind, air and steam—he intends that the vessel shall leave the Broomielaw on Tuesdays, Thursdays and Saturdays about midday or at such time thereafter as may answer from the state of the tide and to leave Greenock at 10 a.m. Weekly sailings in days in the year to enable the passenger to return to the tide.

The elegance, comfort, safety and speed of this vessel require only to be proved to meet the approbation of the public, and the proprietor is determined to do everything in his power to merit public endorsement.

The terms are for the present 4 shillings for the best cabin and 3 shillings for the second, but beyond these rates nothing is to be allowed to servants or any other person employed about the vessel.

What would poor neglected Henry Bell have said could he have seen his humble little Comet, of whose elegance, comfort and speed he was so proud, alongside a modern ocean racer or one of the latest palatial river steamers on the Clyde or Thames, if so well-advertised?

A Summer Dream.

We have picked a genial wizard as a leader in the fray.

We call on him to drive our various

Eczema Always  
Burning and Itching

Used Box of Cuticura Ointment and It Completely Disappeared.

"I have suffered from eczema for two years. The trouble began on one arm where there appeared a red spot about a five-cent size, which would burn and itch. I tried to scratch and burn. The first days I didn't care, but soon that it gained in size, I tried to scratch and burn. I had to scratch and burn without success. It was always burning and itched. Having seen the newspaper advertisement of the Cuticura Ointment, I tried it. The first day I used it, I was greatly relieved. The Cuticura Ointment disappeared. The Cuticura Ointment is even better. —N. Osgood, Matlock, Que., Jan. 14, 1911.

## A Generation of Success

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the simplest and most economical treatment for skin troubles, especially those of the scalp, humors, of young and old. A single set is often sufficient. Sold by druggists and dealers. May be had in small boxes of Cuticura Soap and Ointment, post-free with 25c. a box in small containers, send to Pedlar Granary, 100 Columbus Ave., Boston, U.S.A.

Judge—What is your reason for wanting a divorce?

Wife—My husband is a baseball fan. Judge—That does not constitute sufficient ground for a decree.

Wife—I know that, your Honor, but his team is in last place.—St. Louis Post-Dispatch.

When Charles P. Crossos, now a well-known Washington correspondent, was a reporter on the New York Tribune, he came to St. Louis Saturday night to interview the baseball player famous in New York both for his wit and his good deeds.

Father Ducey was in the station to see him off, and he said, "I don't know what will wait you, but was told that nobody was in the church, and that he could in and see Father Ducey and come out before anyone else." The player agreed.

He found the reverend father waiting and began a florid conversation with him, being somewhat awed by his unorthodox surroundings.

Good evening, my son.

Father, I am a reporter from the New York Tribune.

Very well; I suppose you from that;

Men's prerogative.

Mrs. Neeps, the busy and decided wife of a farmer, had no romantic notions about men. She is much more interested in doing the work her husband leaves, though to both of them such trials.

So the energetic female with spade and hoe, and a wheelbarrow on her shoulders, questions and receives a very friendly reception, and no encouragement at all.

But my good woman, she persisted, doesn't want a vote?

Mrs. Neeps shook her head vigorously, and in a most determined manner.

Not me, she asserted. What I may is that if there is one thing that menfolk can do by themselves let 'em do it, and welcome.

On the War Path

Good afternoon, Johnny, said the nice young lad, visiting his mother's house in the sweet cause of charity. "Will you come to my school?" "What's your school?" "I'm not in school. A lot of your little friends have joined and we are going to have a lovely party at Christmas."

He put his hand to his head. Then suddenly he exclaimed, "I'm sick."

Has a boy called Johnson, with red hair, joined yet?

"Yes, dear, said the nice young lady, as she took him to like it. He's such a good little boy."

"Huh, is he?" muttered Johnny. Well if that's there, I'll come. I've been looking for a place for him to go and never knew where to find him before."

Japan, which a few years ago extorted no cotton underclothing at all, now has practically the monopoly of the Indian market, and has greatly encroached on the trade of the United Kingdom.

Doctor, said the lady patient, I suffer from a sore throat.

"Yes, doctor," replied the fussy old M.D.; "but you would probably suffer a great deal more without them."

Tommy, said his mother, grandmother is very ill. Can't you go in and cheer her up?

"I'm sorry, mom, and he went into the side room. But in a few moments he came out disconsolate.

"Can't mother, she said—she seemed to get worse."

"What did you say, dear?" asked mother.

"Why, I asked her what she would like sold at her funeral."

He looked ill.

Littl Johnny was small of stature and looked rather pale and out of sorts, which led his self-satisfied father to think him a trifle weak.

Who's your family doctor? asked a big boy with a bullying swaggering air.

"I don't have any doctor at all, said Johnny. I never see one."

How jolly fine, replied the other. You don't have any medicine either?

"Oh, don't, replied Johnny. That's all you know about it! My father's a dentist, my mother a homoeopathist, my older sister is joining the amateur class, drumming bell, grandmother tries every patient medicine advertised, my uncle is a veterinary surgeon, and—oh, he's almost in me!

They all practise on me!"

The area of the United Kingdom is 121,000 square miles.

According to the last census, there are 147,000 foreigners in England.

The total number of officers, seamen, and boys in our Navy exceeds 100,000.

Public education throughout the United Kingdom costs the ratepayers \$100,000,000 annually.

Belle—Yes, the more time he gets the less he has.

The transition from winter's cold to summer's heat frequently puts a strain upon the system—whether from natural constitution—or a complete form of disorder in dysentery, to which many are prone in the spring season. The very best medicine to use in such a case of malady is Dr. J. D. Kellogg's Dysentery Cordial. It is a standard remedy, sold everywhere.

Yes, said the small boy, the reporter who was looking for some news to put in his paper, mother fell and sprained her three legs.

Phew! What a relief that is, me, youngerster cried the reporter. Don't be too funny. Your mother hasn't got any legs.

I didn't say she had, retorted the wicked boy. The legs belonged to a table which mother fell against. She wasn't hurt at all.

Ampt Anna asked her little nephew what he would like to give his cousin for his birthday.

I know, he answered, but I ain't big enough.

Do you think it is becoming? she asked, appearing in her newest gown.

It's not better about that, quoth the friend. If it's perfect, it's perfect.

A little boy aged 4 was asked by a young man how much 3 and 2 made.

The boy answered correctly, but finally did not do well in his question.

It was 5.

Only five of the belly tickles are inhabited.

No one is better able to realize the injurious action of coffee on children than the doctor.

Tea is just as harmful as coffee because it, too, contains the caffeine.

As the doctor himself has been

benefited by it, he says:

"I wish up to add my testimony in regard to that extract of Postum. I have had functional or nervous heart troubles for over 15 years, and a part of the time was under treatment with distilled water."

"It was a moderate number of cups and did not think drinking it hurt me.

But on stopping it and using Postum instead, my heart got all right, and I am now able to go to the change from coffee to Postum.

"I am prescribing it now in cases of asthma, especially when coffee does not agree or affects the heart, nerves or stomach.

"When made right it has a much better flavor than coffee, and is a better drink for children. I continue to recommend it to our patients, and I have my own case to refer to.

"Once I had a case of Postum, and the little book, 'The Road to Wellville,'

**A Query From Uncle Sam**

The Calgary board of trade last week  
received a letter of enquiry from a resi-  
dent of the little town of Rochester, N.Y.

The question was, "Is it safe to invest  
money in whether Calgary limitates,  
could support a moving picture theatre,  
had a house to rent, or a lot for sale  
and so to whether \$17.17 in Calgary would  
be considered a big enough investment;  
if Calgary had a water system or did the  
residents of Main Street go down to the  
farmers well at Midnapore for water; if  
the population of Calgary would likely  
to exceed 2,000 people, etc., etc. The  
guy was too stupid to ask as to whether  
Calgary had blue heavens overhead!"

Mr. Rochester man was informed that  
Calgary already had a little over 2000  
population; had an electric light plant  
which exerted power through the means  
of a thing called a dynamo; had a building  
in which there were 1000 seats; had a  
large amount of saloon on one end by means  
of a machine something like a camera at  
the other end; had street cars on which  
you could ride cheaper than by using  
Stink's mare; had a policeman, who  
would grow fat were he to do patrol duty  
in a small village like Rochester; had a  
beer system which produced a bigger  
flow than the water system of little  
Rochester; and the age of "wells" had  
faded away lack something to do.

Mr. Rochester man was invited to pay  
Calgary a visit, and be sure to bring a  
trunk with him, for the people of Calgary  
would jointly look after his little "ducks"  
and see that the big bank robbers would  
not deprive him of his hard-earned  
seventeen dollars and seventeen cents.

**Assizes Opens**

The fall criminal assizes of the  
Supreme Court opened at Lethbridge  
on Tuesday. The criminal

docket is a long one and includes;  
Edwin Stukley, of Milk River,  
accused of murder of Frederick

Egan at Lethbridge; John Carroll,  
formerly connected with the

Alberta hotel in Blairmore, but later  
of Taber, accused of intent to

murder of H. F. Annable; George

Rawnsley, accused of bigamy;

Albert Graham, Carmangay, ac-  
cused of horse stealing; W. D.

Whitney, accused of unlawfully

receiving cattle belonging to Blood

Indians, knowing same to have  
been stolen; John McKay, accused  
of attempt to murder Thomas Ox-  
land and burglary; William Kelly  
forescaping from custody. Oubingae  
arraigned all with exception of the  
last two named pleaded not guilty.

**Interesting Lecture**

Last week, Mr. A. Millar, of the

Blairmore Mines Rescue Station,

gave a lecture of his work, before

the Adult Bible Class of the Pres-  
byterian Church, and their friends.

He began with a history of this

movement, describing in an inter-  
esting manner the introduction of

this apparatus into general use,

and telling of some notable cases,

where men were rescued and  
properly saved.

The lecturer brought with him a

number of sets of the Government

apparatus under his care, and

several of the audience permitted

themselves to be used as examples,

or models, and as their reward,

they were allowed to live for a

while under the exhilarating in-  
fluence of pure oxygen. While the

oxygen properties were being

shown, one of the gentlemen present

offered a finger and thumb for

combustion, but when the finger  
began to burn, the hand was with-  
drawn so quickly that most of

the audience were amused, though  
some were undoubtedly dis-  
appointed.

With a palometer, Mr. Millar

illustrated the work of reviving

unconscious persons, and with a

small cage to which is attached an

oxygen cylinder, and in which a

mouse or small bird is carried, the  
audience were shown how dan-  
gerous gases could be detected in  
the mine.

Mr. Millar was assisted by Mr.  
Foot, who had to continue the  
lecture while the former had on a  
set of the apparatus, and so was  
unable to speak. At the close a  
number of questions were asked  
after which a vote of thanks was  
tendered. In concluding the vote of  
thanks, Mr. Baker expressed his  
satisfaction, because this work was  
brought before the public in this  
manner.

The above lecture is the first of  
a series under the auspices of the  
A. B. C. one being planned for  
each month. During November  
the A. B. C. program will be as follows:- Friday the 8th, debate;  
15, Music; 22, an address; 29,  
a social. The study talk place  
every Sunday at 3.

The A. B. C. holds a Holloween  
Social at Thursday evening, instead  
of Friday night. Everybody is  
invited to join in making the  
evening a pleasant one.

#### Fritz Eberts Gets Reprieve

McLeod, Oct. 23.—With only five days set allowed him to live, before paying the extreme penalty for murdering Constable Wilmet, of the R.W.M.P., a reprieve has been granted to Fritz Eberts.

Tonight a telegram was received from the Minister of Justice, Ottawa, by Messrs. MacLeod & Grey, counsel for Eberts, announcing that Eberts' sentence had been commuted to life imprisonment. All preparations had been made for the hanging on Monday next, the scaffold built and witness arranged.

The commutation of the sentence is a great victory for J. W. McDonald, who conducted Eberts' fight for life. Eberts will likely be removed to the Edmonton penitentiary.

The murder was committed April 13, 1908, at Frank, Alta.

Blairmore Lodge, No. 65, meets in their Hall—389 Victoria St., every Tuesday at 8 o'clock. Visiting brethren welcome.

KIDNEY-LIVER PILLS**

Life many another Newfoundland

feels unbounded gratitude for the  
benefit obtained from the use of Dr.  
CHASE'S PILLS.

For years he had suffered from a  
congested condition of the liver and  
kidneys, with headaches, backaches,  
pains in limbs and body. Words fail  
me to describe his sufferings as  
the gratitude he wants to express for  
the cure.

Mr. Alex J. Stone, West Point,

Pills, but I haven't. You must excuse  
my mistake, I like now. Newfoundland  
isn't here not much education,  
but I want to thank you many times  
for your medicine.

"I can't tell you what I suffered  
from those terrible derangements,  
indigestion and constipation, nor can  
I find words to express how much  
good this medicine has done me.  
I feel like a boy again. For years  
I have given some of these pills to  
friends, who tell me they have done  
them a wonderful lot of good. I  
want to thank my heartiest gratitude  
the benefits derived from the  
great medicine."

She threw herself across bed, said  
O, mama, my tires are flat.

Too Plain and Homely

Mrs. Brown had advertised for a  
general servant, and amidst the huge  
number of replies to her advertisement  
she made an appointment with Mary  
Smith.

Accordingly, she interviewed the  
applicant in her drawing-room.

Of course, Mrs. Brown expected  
the maid to be a picture of beauty,  
clean sleeves, or wash-up dishes, and  
I shan't be required to answer the  
door, or dust any of the rooms?

My mother-in-law remarked, Mrs.  
Smith, in a painted voice, "I should  
never presume to voice my servant to  
do any such things. All I want is  
a servant to look after, and I'm afraid  
you'd make too plain for that. Good  
night."

**BUSINESS GIRLS**

**Reasons Why They Age Prematurely**

Why is it that nine out of every ten  
girls workers—one meets are pasty  
and yellowish, typists, mill girls, school  
teachers, mill hands, seam girls—one  
and all have the yellow-white tinge of  
a dead complexion?

Women commercial travellers are  
the only ones with comparatively  
rosy cheeks.

This may have something to do with the exercise, for women  
working in this branch of industry

never had a more beautiful  
than a sharp walk, however short.

But perhaps another reason for the  
unattractive appearance of these young  
women is the fact that during her peregrinations  
she usually stays at hotels, where the food is good. Good food  
is essential to health, especially in  
adolescence. She knows, though, that drinking meat is  
detrimental to good looks; that she  
could never get about as she does on  
a bacon-and-bean diet, or on tea lunch, which  
she has, with difficulty, in maintaining her  
typist. Even the country girl who  
had inherited roses on a pastry  
diet.

A plate of ham or tongue, a crisp  
roll and butter, and a glass of water  
would prove just as appetising and in-  
finitely more digestible.

Biting into a hard roll causes the teeth to  
begin with a snap, and a good  
bite, with a snap, is good.

Swallowing the water after, during,  
the meal, is the wisest precaution to  
be taken by the girl who values her  
complexion.

Cola-Cola is a good drink, but  
besides being incongruous in the middle  
of the day, exceedingly hurtful beverages
